

ThinkPad L13 Yoga Gen 3 (Intel)

Whether working from an office space or home, this multi-mode, portable device is designed to adapt to any environment with ease. The latest 12th Gen Intel Core processor delivers fast and responsive performance while up to 32GB DDR4 memory and up to 1TB PCIe storage let users switch between applications and multitask with ease. This MIL-spec-tested device is not only built to survive the daily rigors but is also loaded with comprehensive security features to protect vital data.

The optional digital pen makes it easy to sketch, take notes or review documents on the move, and the pen can be recharged and stored inside the device. The display has an ultra-narrow border, maximizing screen space in a more compact design.

A smartly positioned optional 5MP camera is located on the rear of the device when in tablet mode, allowing users to capture HD photos and videos, just like using a tablet.

Minimal preloaded applications mean maximum battery life and responsiveness for users, and faster deployment for IT admins.

Lenovo devices that are a class apart

The mid-range ThinkPad L Series offers enterprise docking, enhanced security features and optional remote management capabilities.
