Matrox[®] ConvertIP[™] DRH

Dual-channel RJ45 HDMI-to-IP transmitter/receiver

Matrox ConvertIP DRH is a compact, standalone ST 2110 and IPMX transmitter/receiver device. Featuring HDMI I/O and three RJ45 ports on a single device, ConvertIP DRH is designed for 1G AV workflows and is optimal for an ultra-low latency experience. The device can deliver power over Ethernet through its RJ45 connection, or it can be powered through an optional power supply unit. Both can be used simultaneously to deliver power redundancy.
