Tap dial switch

Hue

Wireless installation

Battery powered

Easy access to light scenes

Use as a remote control

8719514440937

Easy smart lighting

Control up to three Rooms or a Zone with each individual button of the Tap dial switch, available in black or white. Turn the dial to dim and brighten the lights. Mount it to the wall, place it on a magnetic surface, or use it as a remote control.

Full control from a smart device with the Hue bridge

- Control it your way

Hue switches 2022 convenience

- Convenient versatility

Hue switches 2022 control

- Set scenes instantly
- Use it your way
- Personalise each button
- Rotate to dim and brighten easily
- Use as a remote or mount to the wall
- Control multiple Rooms or Zones

Highlights

Control it your way

Connect your Philips Hue lights with the bridge and start discovering the endless possibilities. Control your lights from your smartphone or tablet via the Philips Hue app, or add switches to your system to activate your lights. Set timers, notifications, alarms and more for the full Philips Hue experience. Philips Hue even works with Amazon Alexa, Apple Homekit and Google Home to allow you to control your lights with your voice.

Convenient versatility

Control your entire smart lighting system from anywhere in your home – without your phone or tablet.

Set scenes instantly

With a sleek, matte design in both black and white, the Philips Hue Tap dial switch lets you set scenes in any room of your home. Programme each button to control three separate Rooms or a Zone and choose a scene for each.

Use it your way

Mount the Tap dial switch to the wall with its adhesive backing, attach it to any magnetic surface or remove it from the wall plate and use it anywhere in your home as a remote control.

Personalise each button

Choose a separate Room or Zone (as well as a light scene!) for each button in the Settings tab of the Hue app.

Rotate to dim and brighten easily

For precise lighting levels, turn the dial slowly to dim or brighten in smaller increments. Turn it faster to quickly brighten or dim the room.

Use as a remote or mount to the wall

Attach the Tap dial switch to the wall with its adhesive backing, place on any magnetic surface or simply remove it from the wall plate to use it as a remote control.

Control multiple Rooms or Zones

Let each button on the switch control up to three different Rooms or a Zone with its own individual scene, whether it's preset or made by you.

Specifications

Design and finishing

- Colour: Black
- Material: Synthetic

Environmental

- Operational humidity: 0%<H<80% (non-condensing)
- Operational temperature: 0 °C – 40 °C

Extra feature/accessory incl.

- Portable: Yes

Guarantee

- 2 years: Yes

Product dimensions and weight

- Net weight: 0.07 kg
- Height: 2 cm
- Length: 6 cm
- Width: 6 cm
