ThinkPad T14s Gen 3 (AMD)

Professionals who are always on-the-move need a laptop powered with up to AMD Ryzen 7 Pro Processor with high processing power. Support of WiFi6E enables faster connection speeds so that users can stay productive in the field without any network congestion. Additionally, optional touch style fingerprint reader on the power button allows instant log in into the system thus preventing data from being compromised.

BUSINESS DEVICES THAT ARE A CLASS APART

The ultimate productivity notebook, ThinkPad T Series will keep users productive all day with long battery life, docking and enhanced connectivity options, security and manageability features.

REASONS TO BUY

Mobile workers will appreciate the Dolby Audio dual stereo speakers and optional dual array microphone that helps with better audio quality and clear reception to calls. While optional privacy shutter prevents intrusion when the camera is not in use.

Up to 32GB LPDDR5 memory and up to 2TB SSD storage drives performance, it enables users to store and access heavy files on the system with ease.

Minimal preloaded applications mean maximum battery life and responsiveness for users, and faster deployment for IT admins.
