

ThinkPad X13 Gen 3 (Intel)

Data analysts who often handle complex tasks require powerful processing – the laptop powered by up to 12th Gen Intel Core i7 Processor offers incredible speed and efficiency. It also features Intel Iris Xe or Intel UHD Graphics, providing superior visualization and rendering capabilities, a must-have for design specialists. Moreover, the dual Thunderbolt 4 port connectivity ensures high-speed data transfer, essential when simultaneously working with large files and multiple applications.

Featuring a 13.3-inch screen with up to WUXGA resolution and up to 500nits of brightness ensuring greater pixel density and enhanced image clarity – ideal for accurate representation of text or numbers in presentations and line charts.

With Thunderbolt 4 ports, business professionals can transfer large files such as extensive data sets and high-resolution videos quickly and efficiently between devices.

Minimal preloaded applications mean maximum battery life and responsiveness for users, and faster deployment for IT admins.

Lenovo devices that are a class apart

ThinkPad X Series ultraportables combine enterprise security, manageability, docking and productivity features into a thin and lightweight design.
