- Auto shut-off after 8 minutes
- One optimal temperature setting, for no burns guaranteed
- Quick calc release for long lasting performance
- SteamGlide Elite soleplate for ultimate gliding and durability
- Vertical shots of steam for hanging clothes

Highlights

3000 W for fast heat-up

Get started on your ironing in no time with more power for fast heat-up.

Continuous steam up to 100 g/min

Azur 8000 Series delivers up to 100 g/min extra powerful and consistent steam output to remove creases faster.

Turbo Steam up to 260 g

The extra long steam boost delivers more power for removing tough creases from thicker fabrics like your favourite pair of jeans. Up to 260 g of turbo steam for even more powerful ironing.

Intelligent automatic steam

Ensure that your ironing is completed quickly and with minimal effort, with the new motion sensor technology that recognises when you move the iron to release steam automatically.

350 ml water tank

Fewer refills are required thanks to a large 350 ml water tank, so you can iron more clothes in one go.

Auto shut-off

To give you peace of mind, the steam iron automatically switches itself off after 8 minutes.

No burns guaranteed

One optimal setting for all ironable fabrics. For no burns, guaranteed. Thanks to OptimalTEMP technology, we guarantee that this iron will never cause burns to any ironable fabric and you can iron everything from jeans to silk, from linen to cashmere safely, in any order, without waiting for the temperature to adjust or pre-sorting clothes.

Quick Calc Release

The quick calc release helps to maintain peak performance by removing calcium build-up or limescale.

SteamGlide Elite soleplate

Smoothly glide over creases with the super-smooth SteamGlide Elite soleplate that is gentle on your clothes. The super-smooth SteamGlide Elite soleplate is durable, scratch-resistant and easy to keep clean.
