Maximize what you can accomplish.

- Empower your workforce with performance that conquers every task—an AMD Ryzen™ R1505G processor¹, high-speed, responsive system memory, and native support for up to three UHD/4K displays.

Refined security

- Encrypt data as it flows between the system memory and processor, protect firmware, and lock down access with an inherently secure thin client that has AMD Memory Guard, an embedded OS, and a NIST SP800-193 component.

Modern flexibility

- Select from up to 35 different subsystem options, including wired or wireless networking and support for legacy peripherals. Conveniently position the thin client in up to six different orientations with an integrated VESA mount.²

Value-added software

- Remotely setup and deploy your devices and get local-quality multimedia with exclusive software that makes our thin clients capable, responsive, and reliable.
- Balance the load on remote resources with the HP t640 Thin Client that easily integrates into your virtualized computing or a hybrid cloud computing environment.
- Create a more modern workspace by configuring your HP t640 Thin Client to work with a USB-C® docking display.³
- Deter unauthorized updates with an embedded operating system that protects flash memory. Customize user settings and permissions to monitor and control incoming and outgoing data.
- Secure your content and data even more with an optional smartcard-integrated keyboard or Fiber Optic NIC connection.⁴
- Deploy the HP t640 Thin Client across your healthcare environment, from reception areas to medical carts to data entry. It can be mounted horizontally or vertically and is certified to meet EN/IEC 60601-1-2 technical standards for safety near patients and medical devices.
- Create a working environment focused on productivity with the fanless t640 Thin Client equipped with modern solid-state drives for near silent operation.
