

Poly Studio P21 Personal Meeting FHD Display

*Product image may differ from actual product

Supercharge your video calls

Set up a pro-grade video conferencing experience in your personal workspace. One device delivers the quality you want, including display, camera, microphone, and speakers, with a single USB connection to your PC.

Look and sound great

Pro-grade video in a single USB connection that works with your favorite video apps. A brilliant 21" display and built-in HD camera, hi-fidelity speakers, microphone, and adjustable ambient lighting will make you look and sound good.

Vibrant display

The quality conferencing display delivers brightness and vibrant colors. Clearly read facial cues or spreadsheet details. And it makes an awesome second or backup display when not on video calls.

Don't miss a beat

Rich full-fidelity stereo speakers so you won't miss a word. And with the advanced microphone, you're heard loud and clear. No shouting required.

Featuring 21-inch display

See clearly with the enterprise-grade display that delivers brightness and vibrant colors. Get extra working room by using it as a secondary monitor when not in video calls.

Adjustable lighting

Be confident you're lit properly with built-in adjustable, dynamic ambient lighting that illuminates you during video calls.

Precise camera view

Keep clutter out of your calls with a camera field of view optimized to show just you and not too much of your surroundings.

HD video

Full 1080p HD quality that can zoom in up to 4x (digital) to frame you just right.

Built-in audio

Hear and be heard clearly with integrated microphone and stereo speakers.

USB-connected

Keep your workspace clean and clutter-free with a simple all-in-one USB-connected design.
