Get top quality audio

Give your teams and customers the quality audio you expect from Poly, with a flexible noise-canceling microphone to tune out background buzz and chatty neighbors.

Make conversations clear

Better understanding leads to better outcomes, and happier customers. That's why we use voice-optimized frequency response to make conversations clearer – and more accurate.

Flexible microphone boom
Give your teams and customers quality audio with a flexible noise-canceling microphone.

Acoustic protection
SoundGuard Digital uses sophisticated algorithms to provide additional acoustic protection, above and beyond the protection of SoundGuard while it maintains natural-sounding speech.

Inline call controls
Make every call productive, with inline call control for easy volume adjustment and muting (USB versions only).¹

Voice-optimized frequency
Create clearer and better conversations with voice-optimized frequency response.

Technical Specifications Footnotes

¹ SoundGuard Digital Plantronics owns sophisticated algorithms including: Protects against Acoustic Shock by limiting sounds to below 118 dBA; G616 anti-startle protection that limits the noise level to below 102 dB SPL and is therefore compliant to the Australian Communications Industry Forum (ACIF) G616 recommendation; Average daily noise exposure measures and controls sound to prevent the average daily sounds exposure from exceeding 80 dBA or 85 dBA time-weighted average (TWA). ² Requires Poly Lens Desktop App to enable SoundGuard Digital features.
