### Big sound, meet smart ideas

Get down to business and hear voices clearly with the smart speakerphone designed for conference rooms with Poly signature audio. Twin speakers and the six-mic array ensure everyone has a voice while helping to keep echo and noise out.

### Let's get started

Users enjoy easy connectivity with their preferred way to work – connect wirelessly via Bluetooth® or wired via combined USB-A/USB Type-C®. And with a built-in USB video camera input moving from an audio to video call is super easy.<sup>1</sup>

## Featuring

---

### **Six-microphone array**

Experience conference calls with outside noise and distractions tuned out. A six-microphone array focuses on your voice – not the surrounding noise.

### **Full-duplex audio**

Collaboration gets tough when one voice dominates the conversation. Full-duplex audio makes simultaneous conversations a breeze.

### **Audio clarity**

Enjoy more clarity on every call thanks to the bass reflex system with dual passive radiators for natural voice and deep bass.

### **Consistent voice level**

Being on the far end of the call becomes difficult in a conference call with various speakers. Poly Sync 60 features adaptive gain control for consistent voice level even if the speaker stands far from the unit.

### **Simple for IT**

Just deploy and you're done – no new interface to learn – teams use their own devices, and work in the collaboration tools they're comfortable with. For IT, inventory tracking and updates are made easy with Poly Lens remote device management.

### **Certified for Microsoft Teams**

Full Microsoft Teams certification takes your Microsoft Teams experience to the next level with a button for instant access to the app and more.
