Ensure secure conversations

Keep conversations private. With up to 2x better density, this secure DECT™ wireless headset is an ideal choice for financial, medical, government, and contact centers or anywhere sensitive conversations happen.

DECT™ security

Savi 7300 headsets don't just meet security expectations, they exceed them with secure pairing, 128-bit authentication, and military-grade features, such as 256-bit AES encryption. Conversations stay private and secure.

Interference-free audio

With 2x better density than other DECT™ headsets, more people in shared spaces benefit from wireless headsets with clear, interference-free audio. IT can deploy more Savi 7300 Office Series compared to other DECT™ headsets without concern.

Keep conversations private

Make sure nearby conversations are not overheard. The noise-canceling microphone enhanced with Poly Acoustic Fence technology, that meets the Microsoft Teams Open Office specification, private conversations stay private¹.

Featuring

DECT™ security standards

Designed to meet the highest-level DECT™ Security Step C enhanced with military-grade FIPS 140-2 listed features, such as 256-bit AES encryption.²

Meet enterprise security needs

Ideal for use in financial, medical, and government environments, where Bluetooth® technology is typically banned.

Remote management

Stay in control with remote device management for settings, firmware, and security updates.

Roaming range

Give users more freedom to move with a line-of-sight wireless range of up to 580 ft/180 m.

Works with you

Lasts throughout the day with up to 13 hours of talk time. And a choice of wearing style accommodates all your users with monaural or stereo over-the-head (OTH) models.

Certified for Microsoft Teams

Full Microsoft Teams certification takes your Microsoft Teams experience to the next level with a button for instant access to the app and more. Plus, this headset meets Microsoft Teams Open Office premium microphone specification.

Footnotes

Messaging Footnotes

¹ Make sure nearby conversations are not overheard. The noise-canceling microphone enhanced with Poly Acoustic Fence technology, that meets the Microsoft Teams Open Office specification, private conversations stay private. ² DECT security standards can be found on <https://etsi.org> ³ Microsoft Teams Open Office Premium Microphone certification: All headsets are tested to provide clear audio, but open office and other noisy environments pose a greater challenge. Headsets with this designation pick up the voice of the headset user but do not transmit the sound of their neighbors.

Technical Specifications Footnotes

¹ Protects against Acoustic Shock by limiting sounds to below 118 dBA.
