# Xerox® Integrated Colour Server for the Xerox® PrimeLink® C9065/C9070 Printer

Modernise the way you work.

With the combination of the Xerox® PrimeLink® C9065/C9070 Printer and the Xerox® Integrated Colour Server, powerful performance is at your fingertips. Engineered for high-end office applications, it combines world-class colour and workflows for transformative results.

Extend your capabilities with apps from the Xerox App Gallery.

- Tailor your device to work the way you do with the ever-evolving selection of innovative apps available on the Xerox App Gallery.

- Increase your opportunities with an expansive media selection – including Extra Long Sheet (XLS) for creative banner printing – and inline finishing capabilities ranging from stapling and hole-punching to folding for presentations, brochures, reports and newsletters.

- Use Xerox® Standard Accounting and internal auditing to track device usage, set limits and control costs.

- Customise your print driver settings to save on specific applications – such as always printing emails in black and white.

- Maximise your productivity by performing scan, print, copy, fax and file routing operations simultaneously.

- Easily share files or introduce electronic archiving with powerful scan capabilities. Text-searchable files make retrieval simple. And compression technology reduces network load for faster transmission.

- Automate document routing to predefined locations such as email addresses with job flow sheets.

- Enjoy automatic installation, troubleshooting, feature setup and upgrades with the Xerox® CentreWare® IS Embedded Web Server.

- Replenish supplies automatically – Xerox® Automated Meter Readings (AMR) collects and submits readings and Xerox® Automatic Supplies Replenishment (ASR) orders ink whenever supplies run low.

- Securely print from any email-enabled device with @PrintByXerox. No software or app to download. No IT intervention. Just send an email and print at the device.
