

1080p USB-A to HDMI Adapter

USB 3.0 (USB 3.2 Gen 1) Type-A Male to HDMI Female Converter, 1080p@60Hz, Black

Part No.: [153690](#)

EAN-13: 0766623153690 | UPC: 766623153690

USB 3.0 to HDMI Adapter / Converter to connect your laptop, MacBook®, Ultrabook or Desktop PC to an HDMI monitor, TV or projector

The Manhattan USB-A to HDMI Adapter lets you connect your laptop or desktop computer to an HDMI monitor, TV or projector through a single USB Type-A port. Add a display in mirror mode for larger screen space, or add it in extend mode for more productivity with multitasking. It provides a cost-effective and convenient way to expand the video capabilities of your Mac® or PC. This product works like an external graphics card, so adding a second adapter lets you connect a second display.

An HDMI adapter that's made to go with you

The very compact housing makes this USB to HDMI Adapter the perfect travel companion. With a footprint of only 52 x 45 x 16 mm (2.05 x 1.77 x 0.63 in.), it's small enough to fit in an outer notebook bag pocket so you can create a mini-workstation for your laptop where ever you're going.

Features:

- Easily connects a USB-A device to an HDMI display
- Resolutions up to Full HD 1080p@60Hz (1980×1080)
- Converts a USB 3.2 Gen 1 (formerly USB 3.0) signal into an HDMI signal with video and audio

- Ideal for connecting an HDMI display to a PC or laptop that doesn't have an HDMI port or for adding a display if the HDMI port is already in use
- Supports display modes Extended or Mirror on Windows®, and Mirror on Mac®
- Serves as an external graphics card, which allows adding up to two external displays to your system (requires one adapter per display)
- Built-in, sturdy 15 cm (6 in.) cable
- Bus powered: no external power supply needed
- Backward compatible with USB 2.0
- Portable, compact, lightweight design that easily fits into laptop bag pockets
- HDCP 1.4 compliant
- Plug-and-play installation; Windows®, and macOS® compatible
- Three-year warranty
