

HyperX ChargePlay Quad 2

CHARGE. PLAY. REPEAT.

Always be ready for game night with the HyperX ChargePlay™ Quad 2! Simultaneously charge up to four Joy-Con™ controllers and keep your party happy or hot-swap controllers to seamlessly continue your solo adventures. The quick-charging ChargePlay Quad 2 can fully-charge four controllers in 3.5 hours, with battery status indicators right on the base so you can check which controllers are ready for play. Quick, easy-glide docking will keep your Joy-Con™ controllers securely attached to the stable, weighted base.

Key features

Spend less time charging, more time gaming

Get 4 Joy-Con™ controllers fully charged in under 4 hours with the fast-charging ChargePlay Quad 2!

Check charge status at a glance

LED indicators quickly and intuitively let you know if your controllers are fully charged and ready for use.

Simultaneously charge 4 controllers

The ChargePlay Quad 2 has room for four controllers, perfect for recharging after a long night of party games.

Simple, secure docking

The ChargePlay Quad 2 has a weighted base that securely holds all 4 controllers. The easy-glide docking makes attaching and detaching controller a simple task.
