

# HyperX XLR Cable

# RELIABLE, HEAVY-DUTY CABLE.

The HyperX XLR cable is built for professionals looking to connect up their high-level audio and video gear. With a die-cast zinc 3-pin connector and braided spiral shielding, you'll ensure that you get good signal quality and clarity. It was designed with durability in mind, featuring branded strain-reliefs to prevent damage from sharp pulls. Keep your connections organized with the help of the included high-visibility cable tags, an ideal XLR cable solution for streamers and other high-end setups.

# **Key features**

# Professional-level 10-foot XLR cable

The HyperX XLR Cable features braided spiral shielding to deliver high signal clarity and quality without a high price tag.

# Included vibrant cable ID tags for organization

Know instantly which cable is connecting point A to point B with the included set of 3 vibrant cable ID tags.

# Designed for durability and reliability

With branded relief-strains to help the cable withstand sharp bends and tugs, this heavy-duty cable is built to last.

#### Ideal for streamers and other high-end setups

This cable was specced for streamers and other setups that need a tidy XLR connection, but don't want massive lengths of cable. For use with the HyperX ProCast, compatible with most XLR devices.
