6th Sense Technology

Discover perfect care. 6th SENSE intelligent sensors adapt resources according to the size and type of load, offering time, energy and water optimization.

FreshCare+

100% Freshness even if you forget to unload. No need to adapt your schedule to the laundry chores: your garments will be protected from odours and creasing. FreshCare+ thanks to delicate steaming and tumbling action inhibits the proliferation of the main bad odour sources (inside the washer) for up to 6 hours after the cycle ends, while gentle tumbling prevents fixing of creases.

Steam Refresh

Steam Refresh regenerates the freshness of your garments avoiding unnecessary washing. Clothes are ready to wear again in just 20 minutes. The washer generates a flow of steam that penetrates into the fibers, removing unpleasant smells, relaxing fibers and smoothing creases.
