Instructions for use of swim rings

WARNING

Only to be used in water in which the child is within its depth and under adult supervision.

Proper inflation and use are critical to ensure safety. Pay attention to ensure safety valve is tightly closed each time in use. Check seams regularly for tears.

INFLATION

Open the safety valve and inflate the swim ring. Insert the stopper into the valve and recess the valve by pushing down firmly on it. Never over-inflate or use high pressure air to inflate.

DEFLATION

Pull stopper out and squeeze the valve at its base until deflated.

CLEAN AND STORAGE

After deflation, use a damp cloth to clean. Store in a cool, dry place and out of children's reach. Check the product for damage at the beginning of each season and at regular interval when in use.
