

MPN: MMKN134-32GB

## 32GB Memory Module NON-ECC, DDR4 PC4 25600, 260PINS, SO-DIMM

In CoreParts you will find a wide range of alternative RAM modules all using original chip sets, that match the performance of your original RAM modules with different sizes, and capacities, manufactured by high-end, certified and trusted suppliers.

- High Quality
- Tested and certified
- Matching Performance
- Reliable with 10 years Warranty

### Specifications

|                    |                                |                 |
|--------------------|--------------------------------|-----------------|
| Features           | CAS latency                    | 19              |
|                    | ECC                            | No              |
|                    | Internal memory                | 32 GB           |
|                    | Internal memory type           | DDR4 PC4 25600  |
|                    | Memory form factor             | 260PINS SO-DIMM |
|                    | Memory layout (modules x size) | 1 x 32 GB       |
|                    | Memory voltage                 | 1.2 V           |
|                    | Module configuration           | 2048M x 8       |
| Other features     | Capacity                       | 32 GB           |
|                    | Chips organisation             | 2048*8          |
|                    | Number of pins                 | 260             |
| Vendor information | Brand Name                     | CoreParts       |
|                    | Warranty                       | 10 Year(s)      |
