Specifications

Galaxy VS Maintenance Bypass Cabinet with Output Transformer 150kW 480V In, 208V Out

GVSBPOT150

Overview

| | |
|--------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Presentation | Maintenance bypass cabinet with output transformer. The maintenance bypass isolates the UPS completely during service operations. The output transformer converts the 480V output of the UPS into 208V output. Compatible with 480V UPS. |
