

ThinkCentre neo 30a 27

Business professionals can enhance their productivity with the desktop powered with up to 12th Gen Intel Core i3 U-Series or 12th Gen Intel Core i7 P-Series Processor. Combined with Intel UHD and Intel Iris Xe Graphics, this desktop enables faster responsiveness for memory-intensive data applications. Configured with up to 16GB DDR4 memory and 1TB SSD storage helps the system to boot faster and offers the modern workforce to work efficiently with more storage space.

A 27” FHD screen with 250nits brightness ensures better visual clarity to professionals for viewing extensive data and line charts. While an anti-glare surface and low blue light filter protect eyes during extended usage.

Users can connect up to 3 independent displays via an HDMI port. While dual USB 2.0 and USB 3.2 Gen2 ports enable faster data transfer.

The device is energy-efficient, with Energy Star 8.0 and EPEAT Silver certifications (both optional), ensuring businesses can reduce their environmental impact.

Mainstream computing for a variety of business uses

ThinkCentre Neo series offers organizations enhanced manageability and security features, along with additional configuration and expansion options.
