

SA240 Privacy Screen for iMac 24”

Part Number: K55170WW | UPC Code: 0 85896 55170 6

The perfect
privacy screen
for your Apple
iMac 24”.

If you need a simple solution for protecting the sensitive information on your Apple iMac from visual data breaches, the SA240 Privacy Screen for iMac 24” is the perfect privacy screen for you.

Designed for exceptional form, fit, and function, the SA240 Privacy Screen for iMac 24” protects your data from prying eyes, is simple to install, remove, and reuse, provides professional-grade privacy screen protection, reduces glare and fingerprints, and includes a webcam notch for an unhindered video conferencing experience.

An ideal accessory for data protection, the SA240 Privacy Screen for iMac 24” looks as good as it functions—and offers everything you need in a privacy screen.

Features include:

- Provides an exact fit to frame and a webcam notch
- Protects the iMac 24” screen from scratches and damage
- Washable, reusable adhesive makes it easy to install, detach, and reattach
- Privacy-focused viewing angle narrows the field of vision to $\pm 30^\circ$
- Blue light reduction filter eases eye strain
- Includes antimicrobial and low-reflective coatings

SA240 Privacy Screen for iMac 24”

Part Number: K55170WW | UPC Code: 0 85896 55170 6

iMac 24” Compatible

Provides an exact fit to frame, and a webcam notch that ensures an unhindered video conferencing experience—while also protecting the iMac 24” screen from scratches and damage.

Simple to Install and Use

A washable, reusable adhesive makes it easy to install, detach, and reattach—with no unsightly bubbles.

Privacy-Focused Viewing Angle

Narrows the field of vision to $\pm 30^\circ$, to protect the information on your screen from prying eyes and reduce the chances of a visual data breach in the office or in a public setting.

Blue Light Reduction

Eases eye strain and reduces the chances of natural sleep pattern interruptions by filtering out up to 30% of the monitor’s harmful blue light rays.

Antimicrobial Coating

Prevents mildew and bacteria growth, which can cause stains and odors on the film.

Low Reflective Coating

Reduces glare from outside light sources for improved viewing clarity.
