Service overview

HP Priority Services are designed to enhance enterprise IT performance, working with your IT staff around the world and providing your organisation with premium global support. HP Priority Services are IT support services that include a HP Global Support Manager, who proactively plans and manages your IT support needs and provides tech-to-tech support to help improve the productivity and effectiveness of your Help Desk resources. HP focuses on your needs by providing services and support designed to address the technology challenges you face today, so your company can quickly get back to business.

HP Priority Services are available for HP commercial customers with IT Help Desks. Priority Services are available in two tiers: (1) HP Priority Access Service and (2) HP Priority Management Service. The Priority Access Service offers premium access to Global Support Agents and provides advanced tools to expedite your support needs and improve Help Desk productivity. The Priority Management Service offers all the features of the Priority Access Service as well as a HP Global Support Manager, located in your region, who monitors and manages your support needs.

Specifications

Table 1. HP Priority Access Service features

Feature	Delivery specifications			
Technical Support Designed for IT	Designed to support IT professionals, rather than end users, this feature leverages the Customer's diagnosis, bypassing standard troubleshooting steps and resulting in up to 30 percent shorter support call times than HP standard remote support.			
Global Experience	This feature provides a globally consistent experience in 63 countries and 19 languages. Refer to the 'Geographic coverage' section (table 4) for specific country information.			
Direct Access	Customer IT help desk teams get priority access to specially trained HP IT support professionals with a freephone number and a unique PIN.			
Online Case- Management Tools	This feature provides support tools with Web-based submission and tracking solutions. The HP Support Case Manager (SCM) provides 24/7 access and enables the Customer to submit and manage support cases via the Internet.			
	Additional access information is included in program onboarding information that is sent to the Customer upon purchase.			

Table 2. HP Priority Management Service features

Feature	Delivery specifications
Priority Access	This service includes all of the features of the Priority Access Service.
Assigned Support Contact	A HP Global Customer Support Manager (GCSM), who is located in the Customer's region and is responsible for meeting global support needs, will be assigned to the Customer.
	The HP GCSM is a highly trained professional who has a thorough understanding of the Customer's business and strategic IT requirements. The GCSM is located in the same geographic region as the Customer's headquarters location, is aligned with the Customer's executive management and makes strategic support decisions.
	If an issue does arise that requires special attention, the GCSM will act as the Customer's single point of contact within HP. In that role, the GCSM can align HP's service professionals to quickly and effectively address the Customer's unique requirements.
Proactive Support Plan	A HP Support Manager will work with the Customer to understand the Customer's business and strategic IT requirements, and then design and implement a proactive support plan tailored to meet the Customer's needs.
	Once the Customer purchases this service, the Support Manager will meet with the Customer and the HP account team to gain a thorough understanding of the Customer's business and IT requirements - including a review and documentation of the Customer's geographical footprint, entitlements, SLAs and specific support instructions.
Problem Management	This feature provides a dedicated support expert to proactively manage and address the Customer's support needs and performance.
	The HP GCSM regularly monitors key operational performance indicators and tracks results against the Customer's established targets. Through regular Customer updates, this feature provides thorough root-cause analysis, corrective action plans, and resolution timelines.
Parts Prioritisation	Whether the Customer has experienced a natural disaster or everyday technical issues, this feature provides the Customer with proactive prioritised access to parts that improve end-user uptime.
	In the event that a part shortage occurs, fulfilment of orders for HP Priority Management Customers will be prioritised at the time the inventory becomes available. Additionally, support teams may utilise exceptional methods to acquire inventory for these Customers including, but not limited to, internal inventory sourcing, expedited factory deliveries and broker purchases.

Feature	Delivery specifications	
Performance Management	This feature provides executive-level reporting that assesses the Customer's unique product quality and service status, as well as regular status communications to track the support health of the installed base.	
	This feature provides monthly and quarterly reviews with the HP global support manager to recap performance metrics. Quarterly performance summary reports provide action plans to address any deviations from targets; monthly open and closed escalations include an issue summary and root-cause action plans.

The Customer will:

- Provide an accurate estimate of the entire HP installed base with a valid HP warranty or HP extended hardware service contract
- Prior to a support incident, conduct internal troubleshooting and diagnosis
- During a support incident, have the Customer's designated support contact perform the following:
- Provide all information necessary for HP to deliver timely and professional support and to enable HP to determine the level of support eligibility
- Perform other reasonable activities to help HP identify or resolve problems, as requested by HP

Service limitations

Activities such as, but not limited to, the following are excluded from this service:

- Hardware without a valid HP warranty or HP extended service contract (except as noted in the 'Service eligibility' section)
- Resolution of hardware-related problems encountered during the verification testing process, unless covered by an active HP warranty or an applicable HP Hardware Support agreement
- Services required due to failure of the Customer to incorporate any system fix, repair, patch or modification provided to the Customer by HP
- Services required due to failure of the Customer to take avoidance action previously advised by HP
- Services that, in the opinion of HP, are required due to unauthorised attempts by non-HP personnel to install, repair, maintain or modify hardware, firmware or software
- Any services not clearly specified in this document

Parts prioritisation is not available in the following countries: Dominican Republic, Ecuador, Guatemala, Honduras, Nicaragua and Uruguay.

General provisions/Other exclusions

- HP Priority Services will be activated within 30 days of purchase of the service.
- HP reserves the right to deny this service if the Customer provides inaccurate or fraudulent information regarding the Customer's in-warranty installed base.
- HP reserves the right to conduct routine audits of the Customer's in-warranty installed base to ensure that there is an accurate sizing of the fleet.
- HP's ability to deliver this service is dependent upon the Customer's full and timely cooperation with HP, as well as the accuracy and completeness of any information and data the Customer provides to HP.
- Geographic locations and languages are subject to change.
