

MPN: LVR-BLANK-3U

Blanking panel 3U for 19" rack

Blanking Panels are used to control the airflow inside of server racks.

← ←

Without blanking panels, the hot exhaust air from the rear of the servers will recirculate through empty spaces in the server rack into the air intakes on the front of the servers which will significantly reduce the cooling efficiency of the system.

← ←

Blanking panels are the easiest and first step towards achieving your Power Usage Effectiveness (PUE) goals. Along with the increase in airflow efficiency, the blanking panels give your rack a seamless and professional appearance.

- improves air flow.
- contribute to power usage effectiveness.
- gives the rack a professional look.

Specifications

Features	Compatible rack width	19 "
	Easy mounting	Yes
	Mounting hole shape	Oval
	Rack capacity	3U
	Type	Blanking Panel - Screw type
Vendor information	Brand Name	Lanview
	Warranty	5 Year(s)
