

ThinkStation P360 Ultra

Powered for modern businesses, the brand-new ThinkStation features dependable power, performance and security at its best. The 12th Gen Intel Core i9 processors are built to deliver top-notch productivity in any workspace. Its HD Realtek audio and speakers bring massive, detailed soundstage that takes online streaming and conferencing to the next level. Security features, including the Discrete TPM 2.0 chip, Kensington security slot and chassis intrusion switch provide end-to-end protection against device and data theft.

Whether working from home or job sites, the Intel Wi-FI 6 feature enables consistent speed and strong bandwidth at all times. The front and rear connectivity ports, including Thunderbolt 4 port, allow seamless data transfer and connectivity to monitors and peripherals.

With up to 128GB DDR5 memory support and up to 1TB storage, this workstation lets users multitask and switch between applications without having to worry about performance and speed.

EPEAT™ Gold and ENERGY STAR® 8.0 certification make it an energy-efficient device.

Professional machines for advanced users

ThinkStation P3 Series workstations provide affordable power-computing with a choice of processor technologies, expansion bays and support for multiple storage drives.
