PRODUCTIVE—Speed and color in one device

- Keep projects moving productively with the fastest color printer at 6 D color pages/min in its class.[1]
- Produce excellent CAD lines and graphics applications in monochrome and color with one large-format device with HP Flex Tech Inks.
- No time is lost waiting for printouts—this printer delivers the first page out in 20 seconds.[2]

EFFICIENT—Simple and optimized

- Give users an easy one-click copy and scan experience via the intuitive 15.6-inch front panel.
- Optimize space with a large-format printer that is 20% more compact.[3]
- Take sustainability further with cardboard-based cartridges[4] and printer made with 33% recycled plastic.[5]

SECURE—Protect your printer, data, and network

- Defend your network and data with the world's most secure large-format printer.[6]
- Protect your printer from cyberthreats with HP Wolf Enterprise.
- Monitor the status of your printer with Command Center's centralized dashboard.

This printer is intended to work only with cartridges that have a new or reused HP chip, and it uses dynamic security measures to block cartridges using a non-HP chip. Periodic firmware updates will maintain the effectiveness of these measures and block cartridges that previously worked. A reused HP chip enables the use of reused, remanufactured, and refilled cartridges. More at: http://www.hp.com/learn/ds
