## A jug to share or a cup just for you

Brew your favorite big pot of filter coffee to share, or with the push of a button, enjoy the various blends just for you. With our simple and easy to use DualBrew technology, you can now brew jugs, cups, filter and pad coffee.

### Coffee variety for every moment

- Stainless steel thermal jug for 7 cups of filter coffee
- DualBrew technology for filter and pad coffee in one machine
- 1 or 2 cups pad coffee in less than a minute

### Fast and easy operation

- Brew jugs and cups at the touch of a button
- 1L water tank to brew up to 7 cups in one go
- Light indication reminds you when to decalcify
- Direct auto shut-off after brewing for energy saving

### Enjoy the best tasting pad and filter coffee

- Machine is tested >10.000 times to ensure consistent quality
- Stainless steel thermal jug for a hot cup of filter coffee

# Highlights

## Jug for 7 cups

The stainless steel thermal jug offers you to brew up to 7 cups of authentic filter coffee in one go. Ideal for a lazy Sunday morning breakfast or when you want to enjoy coffee together.

## DualBrew Technology

Drink your coffee at its best. DualBrew Technology ensures that each cup of pad coffee and each jug of filter coffee is brewed into perfection with the right pressure and amount of water.

## 1 or 2 cups at the same time

This coffeemaker prepares one or two cups of delicious coffee from pads in less than a minute.

## One touch operation

With its simple 3 button interface you can brew 1 cup, 2 cups and a jug at the touch of a button.

## 1L water tank

Thanks to the 1 liter water tank you can brew up to 7 cups of coffee without refilling.

## Decalcification indicator

The Philips coffee machine will remind you when to descale your appliance. Regular descaling with the special developed descaler ensures the best taste of your coffee and prevents limescale from tap water.

## Direct auto shut-off

Your coffee machine switches off automatically after brewing coffee, allowing you to save energy

## Machine is tested >10.000 time

Philips tests their coffee makers during the development process for more than 10.000 cups of coffee. This ensures high quality and durability

## Stainless steel thermal jug

The stainless steel thermal jug maintains the temperature and aroma for hours
