NANOCABLE
The way to connect

POWER CABLE CEE7/M TO 2XC13/H

10.22.0100

EAN: 8433281013179

Now you can optimise the plugs of your power strip with our double cable! Connect two computers to the same socket. Perfect for use at home or in professional environments.

The power cable has a male Schuko connector at one end and two female C13 connectors on the other end.

It's never been easier! Connect your two displays to the power grid using only one power socket.

Our cable is also intended to give energy to a power supply with two C13 inputs.
