Below you will find explanation of symbols used in this manual. Please read this important information before continuing.

Manufacturer declares that this product, marked with CE sign, conforms with the essential requirements contained in EU directives Responsible for CE marking is Wilk Elektronik SA, with its registered office in Laziska Gorne 43-173, Mikolowska 42, Poland. Copy of the declaration can be obtained by contacting Wilk Elektronik SA.

This product may not be treated as a household waste. It should be utilized in appropriate recycling center.

The product can be recycled which means that materials used for its production can be reused.

The product is not a toy and is not intended for children under the age of three.

It is forbidden to place the product near the naked flame.

It is forbidden to immerse any part of this product in water or other liquid, especially when it operates.

It is forbidden to expose this product to potential damage and excess heat or extremely low temperatures that do not comply with the product specification.

USAGE AND COMPATIBILITY
Mass storage device intended for storage and transfer of large amounts of data between computers.

This product is compatible with the following operating systems:
- Windows® XP® / Vista / 7 / 8 / 8.1 / 10
- Mac OS X 10.4 and newer (formatting the drive to a file system other than exFAT may be required)
- Linux

This product is dedicated for consumer-class applications. It is not intended to be used in systems that require high performance or high reliability (e.g. industrial applications), unless it is stated that the product is dedicated for these applications.
To achieve the highest performance, please connect the SSD to USB port compatible with USB 3.2 Gen 2 standard. This SSD is also compatible with USB 3.2 Gen 1 and USB 2.0 standards, but using them will limit device's performance to the level specified by these standards.

WARNING: Computer configuration, operating system and USB power supply quality may affect performance of this SSD.

INSTALLATION
Connect the attached USB cable to the external SSD and connect the other end of the cable to a compatible USB port. The computer will identify hard drive automatically and will install all required drivers, if needed. Product is preformatted in exFAT file system by default. Please make sure that your operating system supports this file system.

CAPACITY
Storage capacity for GOODRAM SSD is always expressed in decimal values. That means, 1GB equals 1 000 000 000 bytes. Operating system that use the binary conversion eg. 1GB equals 1 073 741 824 bytes may show lower storage capacity value than advertised. Additionally, a part of the storage is reserved for files and firmware, managing the drive.

SAFETY MEASURES
To ensure the best user experience and safe use, please follow the precautions listed below:

Do not:
- expose this product to potential damage and excess heat or extremely low temperatures
- immerse any part of this product in water or other liquid
- place the product near the naked flame

Caution:
- provide accurate heat dissipation
- this product is not a toy and is not intended for children under the age of three
- use this product only with compatible devices
