

Healthy working everywhere

R-Go Riser Basic Laptop Stand

Create an ergonomic workplace in no time.

Stimulates an upright posture

Prevent a bent posture with this Basic laptop stand, whether you work at home or in the office.

HYLITE®

Made of Hylite® Aluminum

The laptop stand is made of high-quality aluminum from Hylite: the thinnest aluminum composite material in the world. This makes the stand thin and light. Perfect for travelling!

Height adjustable

With the Riser Basic laptop stand, you can create a healthy workplace in no time. It is adjustable to 3 different heights.

Because we care.

Healthy laptop use

Ergonomic laptop stand

Laptops are ideal for working anywhere. Unfortunately they are not designed for healthy working and provoke a hunched posture. It is precisely this posture that is very strenuous for the neck and shoulders. We have developed the R-Go Riser Basic, which makes it possible to work healthily everywhere.

This Basic version laptop stand has also been AGR-tested and recommended. The stand is easy to operate and can be adjusted to three different heights, allowing you to work in an upright posture. The stand is easy to carry in your laptop bag, so you can create a healthy workplace anywhere.

We care for our environment

We strive for circularity in the design and production of our products. For this commitment, we have received the **Ecovadis Platinum certificate**.

- ✓ All aluminium used for our Riser Basic laptop stand is 100% recycled.
- ✓ Eco-friendly packaging made from recycled cardboard with FSC certified sleeves.
