

Philips AquaTrio
AquaTrio Pro

3-in-1

FC7090

Vacuums, mops and dries in one go

AquaTrio Pro simultaneously vacuums, mops and dries, saving up to 50% time and effort*. Fast-rotating micro-fiber brushes apply clean water to efficiently remove spills, dirt and dust in one pass - for perfect results on all hard floors**.

Easy to use and efficient

- Save up to 50% energy. Save up to 70% water*
- Effective with cold/warm tap water, with/without detergent
- Ideal for all hard floors**
- LED indicators to inform when action is required
- Cleans more than 60m² with one water tank
- Self-cleaning appliance with flushing tray

Revolutionary technology for perfect results

- 2 micro-fiber brushes remove all dirt, dust and grime
- Advanced cleaning performance for perfect results
- Removes up to 99% of bacteria*** and reduces allergens
- Allergy friendly quality tested by ECARF

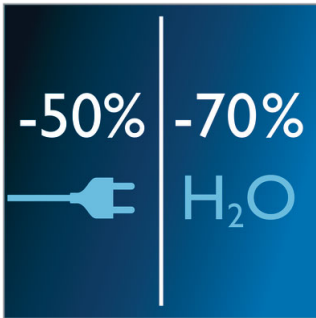

Constant cleaning performance

- Separate clean and dirty water tanks
- Fast rotating brushes clean themselves while in use

PHILIPS

Highlights

Save 50% energy/70% water*

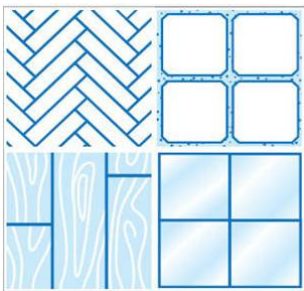

Highly-efficient power usage saves you up to 50% in energy consumption compared to vacuuming. You also use up to 70% less water compared to wet mopping.

Tap water

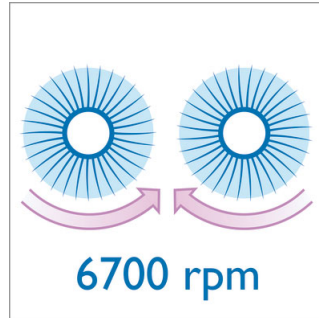

AquaTrio Pro gives excellent results using just cold or warm tap water. If required, you can also add detergent of your choice but use always a low-foaming or non-foaming floor cleaning detergent which is suitable for your hard floor.

For all hard floors**

Perfect for all hard floors (suitable for wet mopping): wood, parquet, laminate, vinyl/linoleum, ceramics/tiles, marble/natural stone.

Fast rotating brushes

Powerful micro-fiber brushes rotate at 6700 rpm to effectively remove all spills, dust and dirt while adapting to the different shapes of the floor and even cleaning in crevices.

Triple-Acceleration Technology

- Vacuums: powerful Aqua Cyclone pulls and removes all spills, dirt and dust - Mops: counter-rotating microfiber brushes apply a mist of clean water to efficiently lift dirt and grime. All dirt is dissolved in water and captured in a separate tank. - Dries: brush rotation speed creates airflow that leaves the floor virtually dry

Hygienic cleaning results

AquaTrio Pro removes up to 99% of all bacteria*** and reduces allergens. Because of the separation of a clean and dirty water tank all dust and allergens will be trapped in the dirty water tank.

LED indicators

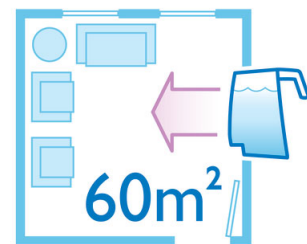

A LED indicator shows you when action is needed. It turns green when AquaTrio Pro is on and ready to clean. It turns blue when the watertanks need either to be filled up or emptied. And finally, it turns red when there is something interfering the brushes, so you can remove the obstacle and keep cleaning easily.

ECARF certified

AquaTrio with water filtration is certified as Allergy friendly by the European Centre for Allergy Research Foundation. Its Aqua Cyclone encapsulates dirt and dust, allergens are captured in water and cannot become airborne again. AquaTrio is removing 99,95% of allergens from cat & dog hairs, dust mites or pollen for an allergy friendly home environment.

Cleans more than 60m²

One full tank containing 700ml cleans more than 60m² of hard floor; cleaning large areas using only a minimal amount of water.

Specifications

Performance

- Cleaning Technology: Triple-Acceleration Technology
- Input power (IEC): Max 500 W
- Mopping element: 2 microfiber rotating brushes
- Mechanical power: 6700 rpm

Usability

- Clean water tank capacity (max): 0.65 L
- Detergents that can be used: clear detergent or just water
- Dirty water tank capacity (max): 0.8 L
- Action radius: 9.5 m
- Change brush while cleaning: Not needed
- Clean water: Refill indicator: Yes, LED indicator
- Cord length: 8 m
- Dirty tank: Full indicator: Yes, LED indicator
- Filters to clean: None
- Handle for easy lifting
- Moves forwards or backwards

- Power supply: Corded
- Start up time: Immediately
- Suitable for wood and parquet

Filtration

- Filter system: Cyclonic. No filter to clean

Nozzles and accessories

- Accessories included: Flushing tray
- Nozzle width: 320 mm

Sustainability

- Energy efficient

Weight and dimensions

- Dimensions of product (LxWxH): 305 x 320 x 1150 mm
- Dimensions of packaging (LxWxH): 790 x 390 x 395 mm
- Weight of product: 6.7 kg
