

MPN: MMKN138-08GB

## 8GB Memory Module NON-ECC, DDR5 PC5-38400, 288PINS, DIMM

In CoreParts you will find a wide range of alternative RAM modules all using original chip sets, that match the performance of your original RAM modules with different sizes, and capacities, manufactured by high-end, certified and trusted suppliers.

- High Quality
- Tested and certified
- Matching Performance
- Reliable with 10 years Warranty

### Specifications

|                    |                                |                |
|--------------------|--------------------------------|----------------|
| Features           | CAS latency                    | 40             |
|                    | ECC                            | No             |
|                    | Internal memory                | 8 GB           |
|                    | Internal memory type           | DDR5 PC5-38400 |
|                    | Memory form factor             | 288PINS DIMM   |
|                    | Memory layout (modules x size) | 1 x 8 GB       |
|                    | Memory voltage                 | 1.1 V          |
|                    | Module configuration           | 1024M x 16     |
| Other features     | Capacity                       | 8 GB           |
|                    | Chips organisation             | 1024*16        |
|                    | Number of pins                 | 288            |
| Vendor information | Brand Name                     | CoreParts      |
|                    | Warranty                       | 10 Year(s)     |
