

ergonomic split keyboard  
**Goldtouch Travel Go2**

**Meets individual body requirements:** Stepless vertical and horizontal adjustable

**Individual adjustable:** 0° 30° adjustment along the horizontal and vertical plane

**Ergonomic:** less reaching to operate the mouse, comfortable and almost noiseless typing

**Mobile:** Compact size; completely foldable

**Connection:** USB

**Research**

Upper limb musculoskeletal discomfort ratings showed some significant improvements with the use of the adjustable keyboard by the end of the study (Hedge, et al, 2002).

**Specifications**

Dimensions:	343 x 22.9 x 152 mm (W x H x D)
Weight:	500 g
Product code:	BNEGTTUS

1. 0° 30° adjustment

2. Compact size

3.

**Health & Safety Regulations**

A compact keyboard does not have a numeric pad. For this reason, the mouse can be placed closer to the keyboard. Research has shown that 90% of keyboard users seldom if ever use the numeric pad.

Working with a compact keyboard results in greater comfort because it reduces the reaching distance to the mouse (Cook, C., et al., 1998). This puts less strain on the shoulder and forearm. Dark letters on a light background make them easier to read (ISO 9241), and contribute to increased productivity (Snyder, 1990).
