RollerMouse Pro

Combining design and functionality for ergonomic impact

Take a proactive approach to your health at work with a mouse that allows you to get the job done comfortably and ergonomically. With the RollerMouse Pro everything is purpose-built to prevent you from reaching, twisting, and straining. The RollerBar, button panel, and scroll wheel are centered to ensure you minimize effort while maximizing your performance and comfort. The interchangeable magnetic palm supports come in a variety of colors, materials, and sizes allowing you to easily customize your RollerMouse to you style and needs.

RollerMouse Pro is designed and developed in Scandinavia in collaboration with ergonomic experts. You can see the Nordic characteristics in the minimalistic approach that unites functionality with the aesthetic.

Contour

Two hands are better than one

Two hands are better than one
With the RollerMouse, your arms are in a neutral posture, in front of your body. This removes tension on shoulders, arms, and elbows, giving you a more comfortable and ergonomic working position. It allows for variation, as you can use your right and left hand for cursor navigation while controlling the clickable Rollerbar with a slight touch of the fingertips. Simply put, you have all functions within reach.

Individual needs, individual solutions

Customize your RollerMouse Pro to your personal preferences with the unique magnetic wrist rests, allowing you to easily change between the various models. Choose between vegan leather, fabric , or natural Bamboo in three different sizes.
The vegan leather version has an antibacterial surface and highest alcohol resistance for improved hygiene. It is easy to change click sounds, cursor speed and click resistance, finding the setup that works best for you.

Plug & Play installation

Connect the RollerMouse Pro to your PC or Mac via Bluetooth, the USB receiver or cable depending on your preferred method. Fits both full-width and compact keyboards. Control multiple screens and customize the programmable buttons to your
