

Epson WorkForce WF-7515

It's hard to find the combination of both A3+ printing and A3 copying, scanning and faxing in one device on the market today. That's why Epson has added A3+ all-in-ones to its range for the first time.

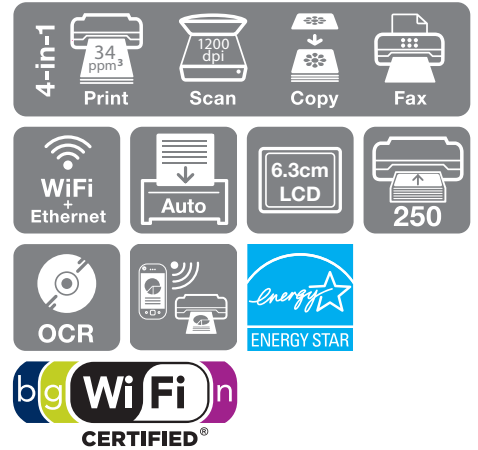

Designed with the needs of both small businesses and home offices in mind, the WorkForce WF-7515 is one of Epson's two true A3+ multifunction printers. It's ideal for users such as graphic designers, architects and engineers and represents the perfect blend of affordability, reliability and speed.

Productivity is enhanced with a high-capacity 250-sheet paper tray for less frequent refilling and a 30-sheet Automatic Document Feeder for multiple page scanning, copying and faxing at up to A3. Multiple users can share these benefits as Ethernet and Wi-Fi connectivity come as standard.

Producing business-quality text and vibrant colours, the economical WF-7515 provides savings of up to 50% cost per page¹ and up to 80% lower energy consumption² compared to competitive lasers to further reduce costs and environmental impact. Alongside this it is more affordable than the laser equivalent.

The WF-7515 also comes with Epson Connect, offering even more flexibility and freedom, allowing users to quickly and easily print documents and images wirelessly from smartphones and tablet PCs⁶. Additionally, users can print from anywhere in the world by emailing documents and images directly to the printer.
