

DisplayPort Extension Cable with Active Repeater and Latching Connector (M/F), 4K 60 Hz, HDR, 4:4:4, HDCP 2.2, 15 ft. (4.6 m), TAA

MODEL NUMBER: P579-015-4K6

Extends your existing 4K DisplayPort connection by 15 ft. Latching male connector helps prevent accidental disconnections.

Features

Extends Your Existing DisplayPort Cable Run by 15 ft.

The dependable P579-015-4K6 (M/F) connects to your existing DisplayPort cable to extend the run by 15 feet (4.6 meters). This allows you more flexibility in placing, for instance, a cable box or media server connected to a DisplayPort-enabled television, monitor or projector. The male connector latches securely to help prevent the cable from becoming accidentally disconnected and disrupting a continuous audio/video signal.

Transmits Crystal-Clear 4K Video with HDR and 4:4:4 Color

This extension cable supports Ultra HD 4K resolutions up to 3840 x 2160 at 60 Hz. It's compatible with DisplayPort 1.2 standards for HDR, providing a wide range of vibrant colors with richer contrast, brighter whites and deeper blacks. HDCP 2.2 compliance allows you to stream 4K Amazon and Netflix content with no complications. This cable also supports 4:4:4 chroma subsampling for top-level PC gaming or using your HDTV as a PC monitor.

Ready to Use Right from the Package, So You Can Plug and Play Immediately

The extension cable requires no software or external power. Just connect the female connector to your existing DisplayPort cable, and connect the latching male connector to your 4K display. The cable features an active repeater, which allows you to connect two devices farther apart than USB's standard five-meter limit.

TAA-Compliant for GSA Schedule Purchases

The P579-015-4K6 is compliant with the Federal Trade Agreements Act (TAA), which makes it eligible for GSA (General Services Administration) Schedule and other federal procurement contracts.
