

PURITAS

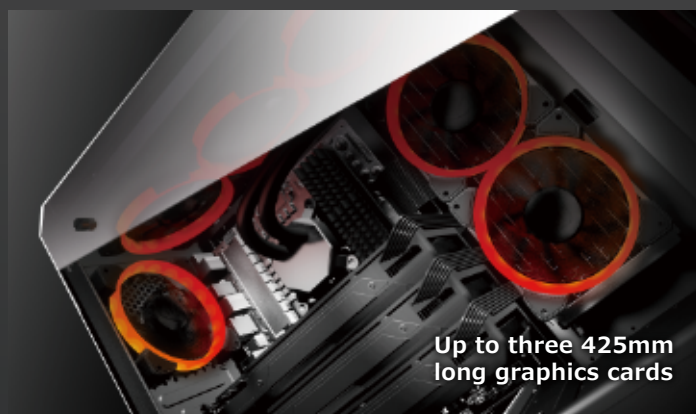

TEMPERED GLASS COVER MID-TOWERCASE
WITH ENHANCED COOLING

Puritas is a case for the valiant. For those who want a build that is truly theirs. For the creators. For the modding heroes. For the serious PC builders. It is a case for those who want to put their skills to the test. Fully transparent and with plenty of space for high-end components, Puritas' limits are only your own.

Three Amazing Light Rings

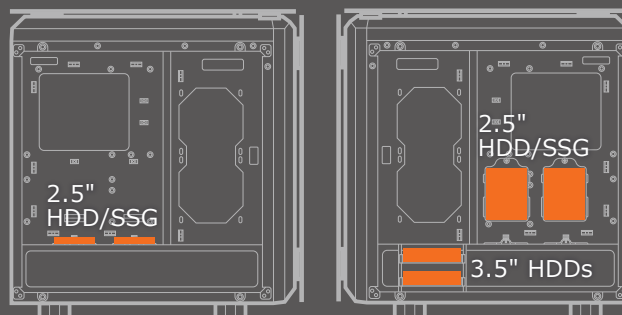

Puritas comes with 3 COUGAR Vortex LED fans that, apart from including the latest technology in fan design, sport a unique tri-directional (inward-forward-outward) light circle, visible from a 180 degree angle. With 33 LEDs per fan, these fans are also brighter than the average backlit fan.

Up to three 425mm
long graphics cards

Superior Gaming Specs

We built Puritas not only to be a beautiful case but also to be able to house a truly powerful computer. This shows in its excellent support for high-end gaming components. With seven expansion slots, Puritas allows you to install up to three 425mm long graphics cards. It also has dedicated space for storage: two 3.5" bays and four 2.5" bays give you space for all the SSDs and HDDs you need.

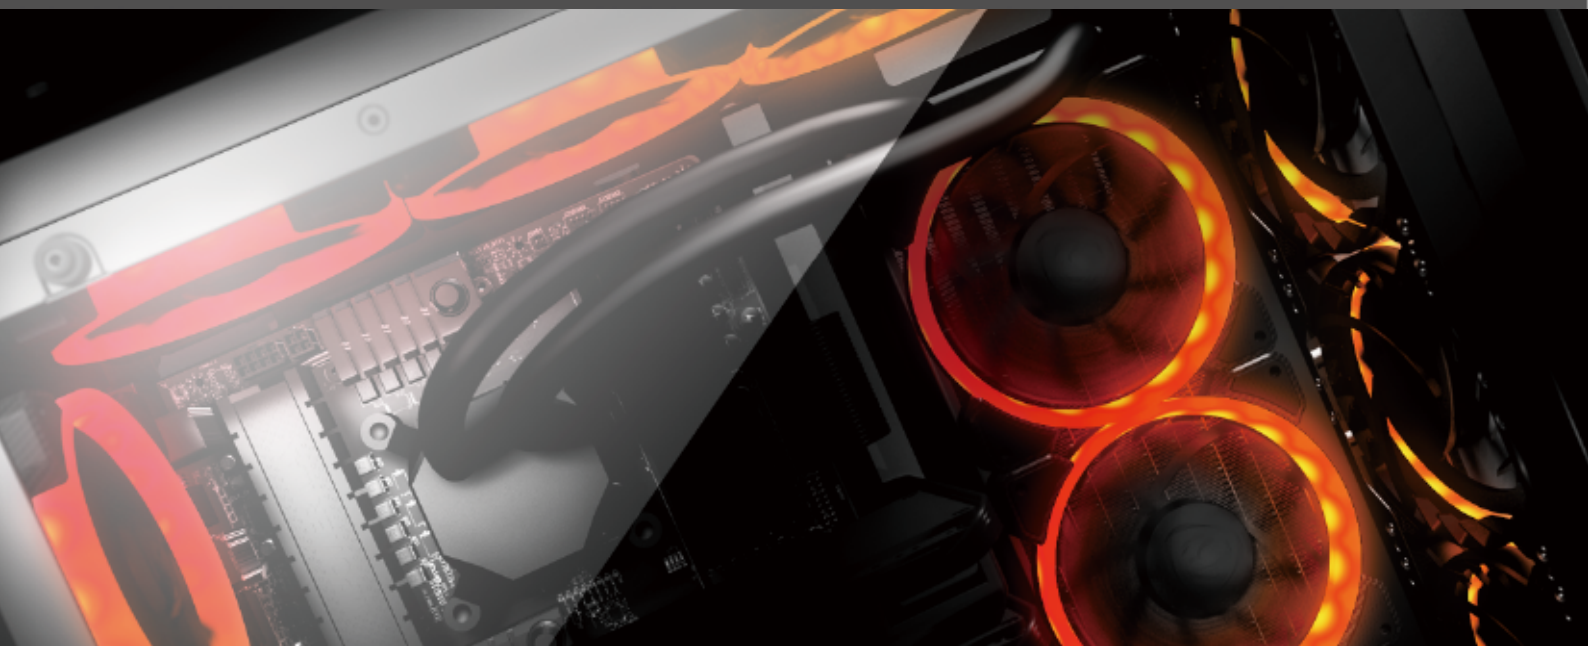

Two 3.5" HDDs and four 2.5" HDD/SSG

PURITAS

TEMPERED GLASS COVER MID-TOWERCASE
WITH ENHANCED COOLING

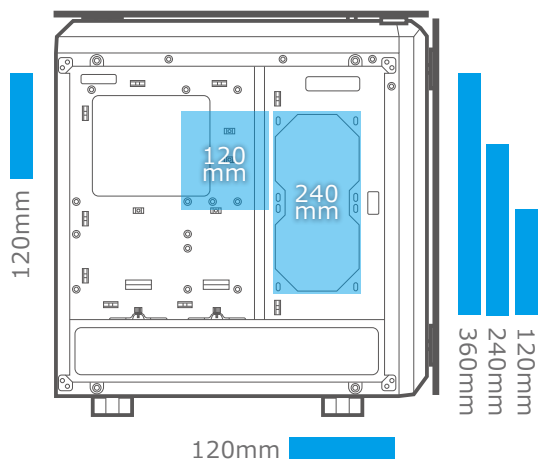

Powerful Cooling

To run the latest games, you need potent components that generate lots of heat; Puritas allows you to enjoy gaming without worrying about overheating thanks to its fantastic cooling support. With the possibility of installing up to five water cooling radiators and ten fans, you will have greater leeway in designing the right solution to keep your computer well cooled!

Water cooling radiator support

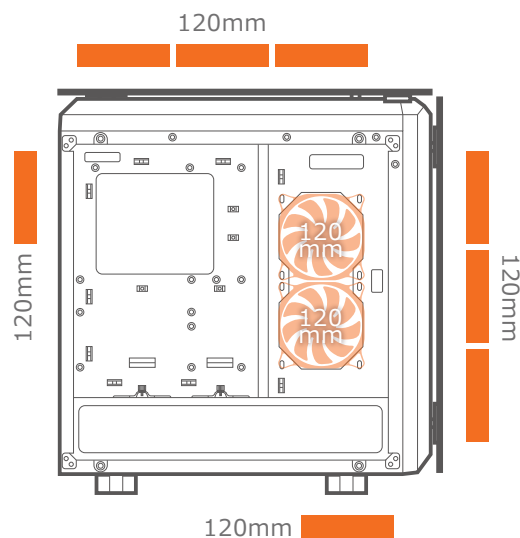

Up to **5** radiators

120mm 
240mm 
360mm 

Air cooling support

Up to **10** fans
