

Legrand quick-cure, anaerobic epoxy field-installable connectors speed installation time. Strip the fiber, inject the adhesive into the connector, insert and scribe the fiber, then polish the connector end face to perfection for a high performance termination.

Features & Benefits

Single mode or multimode

Simplistic offering reduces confusion with a one style connector that covers all multimode applications to include 62.5 micron, standard 50 micron, or laser optimized 50 micron for 10 Gigabit transmission, and single mode

Minimal tools

A compact and economical tool kit contains all the common tools necessary to complete the termination.

Reliable performance

Secure the installation of fiber using an adhesive and primer for a secure, worry-free termination.

Pre-radius LC

Minimal polishing and consistent end-face geometry resulting in more consistent optical performance
