

Lenovo Tablet 10

A Windows 10 tablet that's built for business use, with NFC support, USB-C docking, remote management, security and productivity features. Attach the optional keyboard to the 10.1" tablet to create a basic notebook. Use the optional digital pen for taking notes, signing docs, or sketching.

The front 2MP camera can be used for web conferencing, while the rear 5MP camera makes it a handy device for capturing photos.

Stay connected even where WiFi may not be available; the optional 4G WWAN module uses the cellular network for data connectivity.

Ideal for users who are frequently travelling or work in environments where mobility is essential.

The power of a business PC in a tablet

Lenovo Tab Series is designed for mobile and frontline workers who need a lightweight tablet for basic productivity tasks.
