

Lenovo devices that are a class apart

The ultimate productivity notebook, ThinkPad T Series will keep users productive all day with long battery life, docking and enhanced connectivity options, security and manageability features.

ThinkPad T14 Gen 4 (AMD)

Specially built keeping hybrid workforce in mind, this ThinkPad combines performance and portability in a perfect ratio. From video editing to big data analysis, the onboard AMD Ryzen 7 PRO processor and integrated AMD Radeon graphic features enable professionals to run multiple applications without experiencing slowdowns. The device onboards a range of ports including USB 3.2 Gen 1 to facilitate file transfers, power delivery and connectivity to external devices and peripherals.

Up to 2TB SSD storage and up to 32GB DDR5 memory make the system boot faster, enabling executives to multitask easily while managing projects. Connect high-speed peripherals with numerous ports; transfer data faster with dual USB-C 3.2 ports.

A 14" screen with WQUXGA resolution enables users to view intensive datasets and analytics with absolute clarity. With an optional touch display, swipe, zoom, or scroll on the screen with just a click.

Minimal preloaded applications mean maximum battery life and responsiveness for users, and faster deployment for IT admins.

Lenovo services

Lenovo delivers tailored sustainability services, devices, and infrastructure solutions from our broad portfolio, working closely with you to support your target outcomes across the IT lifecycle..

Return To Depot Repair Warranty

No-hassle repair process at a Lenovo service center Lenovo pays for all shipping between the customer and service facility

Avoid unplanned operational expense with a simple annual fee
