

MPN: LVO-TEST

## the new fiber tester Ideal for troubleshooting on fiber network

Mini-Pro OTDR is apply to FTTx and access network construction and maintenance, to test fiber breakpoint , length, loss and input light automatic detection, automatic test by one key. The tester is compact with 3.5inch colorful LCD screen, new plastic shell design, shock-proof and drop-proof.

The tester also combine 8 functions with highly integrated OTDR, Event maps, Stable Light source , Optical power meter, Visual fault locator , RJ45cable sequence , IL and lighting functions.

It could quick detection of breakpoint, universal connector, .600 internal storage, TF card, USB data storage and built-in 4000mAh lithium battery, USB charging .It is a good choice for long term field work .

- Wave Range 800~1700nm
- Universal Joint FC/SC/ST
- 3.5 inch color LCD Screen

### Specifications

|                               |   |                                      |
|-------------------------------|---|--------------------------------------|
| <b>Battery</b>                | <b>Battery Technology</b>               | Lithium-Ion (Li-Ion)                 |
| <b>Logistics data</b>         | <b>Products per master (outer) case</b> | 18 pc(s)                             |
|                               | <b>Quantity per pack</b>                | 1 pc(s)                              |
| <b>Operational conditions</b> | <b>Operating temperature (T-T)</b>      | -10 - 50 °C                          |
|                               | <b>Storage temperature (T-T)</b>        | -40 -70 °C                           |
| <b>Packaging content</b>      | <b>AC adapter included</b>              | Yes                                  |
|                               | <b>Batteries included</b>               | Yes                                  |
| <b>Power</b>                  | <b>Standby time</b>                     | 20 h                                 |
| <b>Technical details</b>      | <b>Built-in display</b>                 | Yes                                  |
|                               | <b>Calibrated wavelengths</b>           | 850, 1300, 1310, 1490, 1550, 1625 nm |
|                               | <b>Display type</b>                     | LCD                                  |
|                               | <b>Easy to use</b>                      | Yes                                  |
|                               | <b>Fiber mode structure</b>             | Multi-mode, Single-mode              |
|                               | <b>Maximum cable length</b>             | 60000 m                              |
|                               | <b>RoHS compliance</b>                  | Yes                                  |
|                               | <b>Supported connectors</b>             | SC, ST                               |
|                               | <b>Test type</b>                        | Transmission testing                 |
|                               | <b>USB port</b>                         | Yes                                  |
|                               | <b>Wavelength range</b>                 | 800-1700 nm                          |
| <b>Vendor information</b>     | <b>Brand Name</b>                       | Lanview                              |
|                               | <b>Warranty</b>                         | 3 Year(s)                            |
