1. Gold Plated Connectors for high signal quality
2. Unshielded
3. For Both Solid & Stranded Conductor
4. Max. wire OD: 1.1mm
5. Selling Unit: 100pcs/Pack

Description

The Equip Cat 6A RJ45 Plug Set is to provide you with the necessary connectors to terminate Cat 6A Ethernet cables. These plugs are typically used in networking and telecommunications applications where high-speed data transmission is required, and the Cat 6A standard is preferred due to its ability to support data rates of up to 10 Gbps over longer distances.

100pcs/pack: This indicates that the package contains 100 individual RJ45 plugs. This is useful for bulk installations or when you need to terminate multiple Ethernet cables. Having 100 plugs in a pack ensures that you have an adequate supply for your networking needs.
