Poly Studio X50/X52/X70/USB Table Microphone

Superior 3-way audio pickup

The Poly Studio Table Microphone is designed to capture speech while keeping away unwanted noise. No longer do in-person participants need to worry about where they are seated. Packed with superior audio technology, the directional microphone auto-levels voices and automatically removes background noise and echo so that conversations feel inclusive and natural.

Impressive design

Advanced engineering coupled with premium build, render a microphone with superior features. Easily access the mute button from anywhere in the room and know when mute is active via the indicator light. The remarkable pick-up range of 2.5 meters (8.2 feet) provides greater flexibility in different room configurations.

Simplified setup

Everything you need is in the box. Simply connect the tabletop microphone back to the video system via the single audio cable included in the box, and you'll be up and running in seconds.

Featuring

Expand Room Audio Coverage

Expand audio coverage in large rooms with a high-quality tabletop microphone.

Full 360° Audio with 3 Mics

Designed with three (3) directional microphones for 360-degree audio coverage.

Clear Voices, No Distractions

Built to automatically level voices and suppress distractions, so that everyone is heard clearly at all times.

Mute Button for Easy Control

Convenient mute button lets those at the far end of the table control the audio.

Microban® protection

Integrated Microban® technology[1] keeps the microphone clean and fresh for longer.
