STEP 2

SCHEDULING PROGRAMS

01. Schedule Content based on days of the week, any date and time in advance
02. Add different content programs to the schedule based on any requirement
03. Individual displays can have their own schedules set with the location's specific content programs

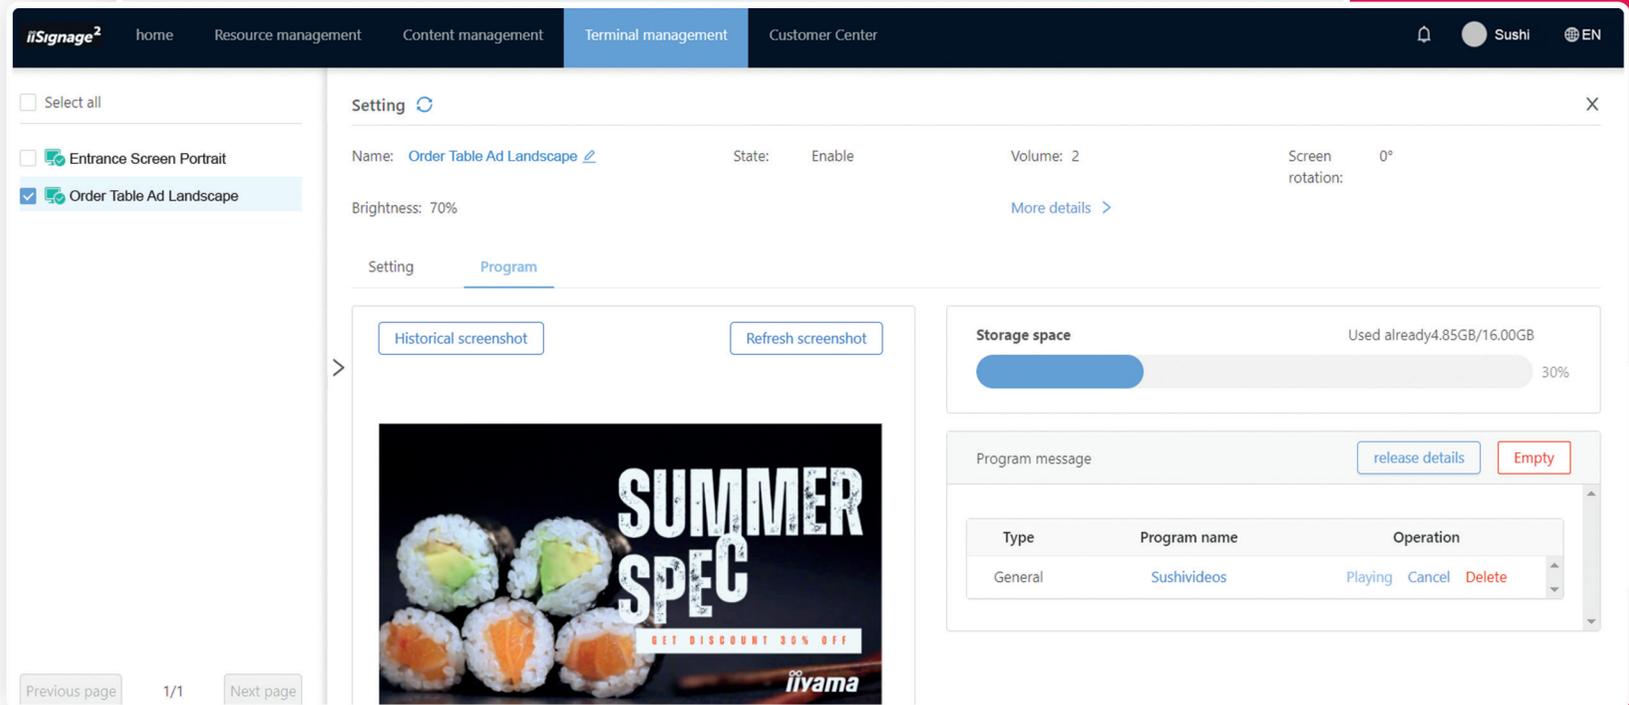

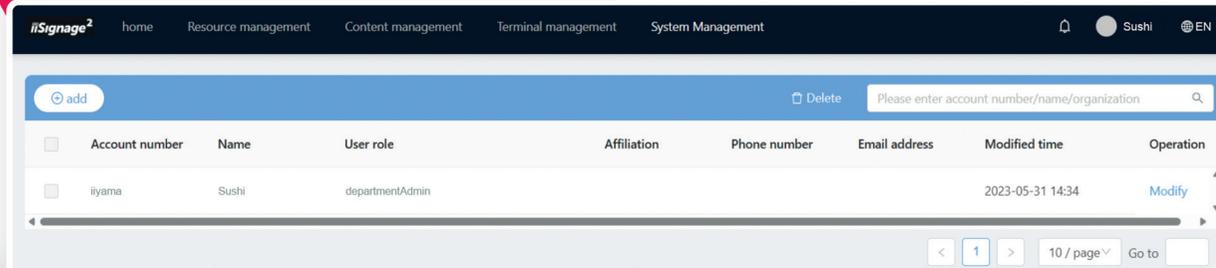

The screenshot shows the iiSignage² Terminal management interface. The top navigation bar includes 'home', 'Resource management', 'Content management', 'Terminal management' (highlighted), and 'System Management'. A user profile 'Sushi' and language 'EN' are visible. Below the navigation, there are buttons for 'My organization', 'Setting', 'Strategy', 'Auto connect', and 'Export all terminal information1 units'. On the right, status indicators show: 'Totally 5 units', 'Online 2 units', 'Standby 0 units', 'Offline 3 units', 'Not enough points 0 units', and 'Disable 0 units'. A search bar and 'Filter' button are also present. The main content is a table with columns: Name, Type, MAC address, IP address, Group, and Operation. The table lists five terminal units, each with a checkbox, name, type, MAC address, IP address, and a set of operation links (Details, Setting, Program).

<input type="checkbox"/>	Name	Type	MAC address	IP address	Group	Operation
<input type="checkbox"/>	Entrance Screen Portrait	Single screen	AA-F6-1F-75-E5-40	192.168.6.32		Details Setting Program
<input type="checkbox"/>	Order Table Ad Landscape	Single screen	ED-FE-54-7A-CA-4E	192.168.6.12		Details Setting Program
<input type="checkbox"/>	Order Table Menu Landscape	Single screen	9C-71-BC-96-94-22	192.168.6.22		Details Setting Program
<input type="checkbox"/>	Menu Portrait	Single screen	ED-9F-8E-2A-7F-50	192.168.6.21		Details Setting Program

STEP 3

SHARE TO THE DISPLAYS
