EarGel

Small
EarGel

Extra-
small
EarGel

NOTE: You can purchase an additional charging case and accessories online at jabra.com/accessories.

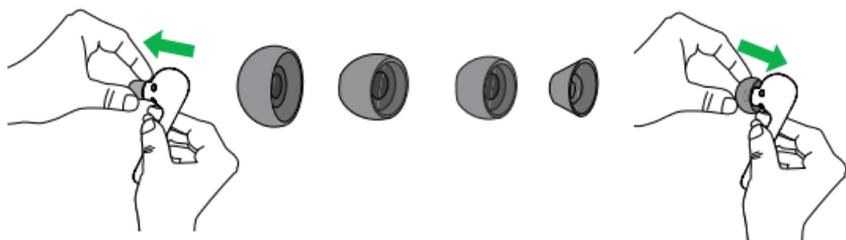

3. HOW TO WEAR

The headset is designed for right ear wearing. For the optimal sound quality and the most comfortable fit, select the correct EarGel size and ensure the headset is fitted correctly into your ear.

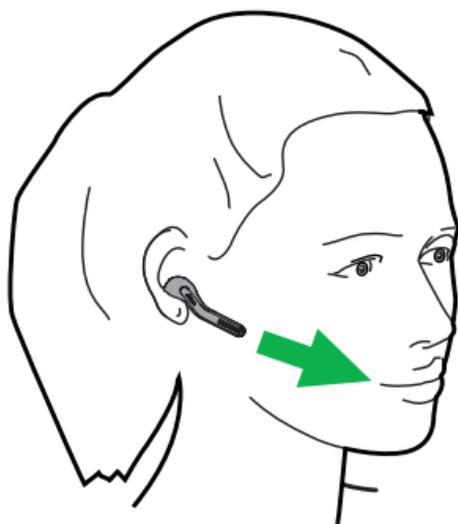

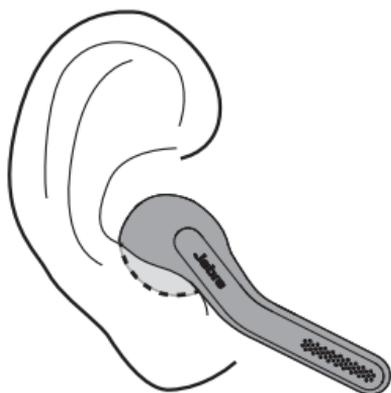

3.1 SELECTING THE CORRECT EARGELS

The headset is supplied with four EarGel sizes: large, medium, small and extra small. The correct EarGel will feel tight and seal out background disturbances.

3.2 GETTING THE CORRECT FIT

Fit the headset firmly inside your right ear, and angle the microphone down towards your mouth.

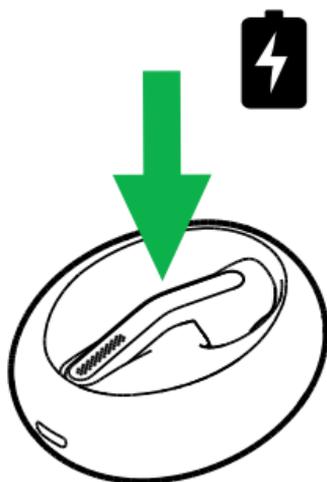

4. HOW TO CHARGE

It is recommended to fully charge the headset and the charging case before first-time use.

Fully charged the headset will have up to 3 hours of talk time, and the charging case will have up to 7 hours of battery.

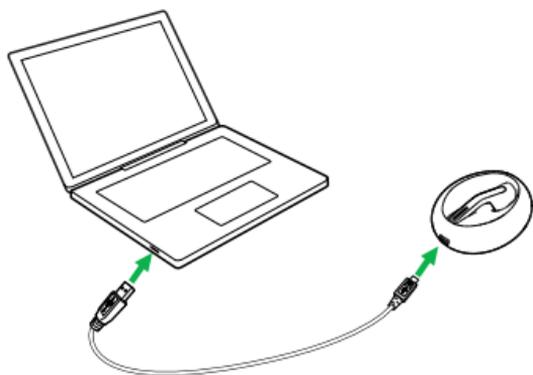

4.1 ON-THE-GO CHARGING

Dock the headset in the charging case for on-the-go charging. It takes approx. 2 hours to fully charge the headset.

4.2 USB CHARGING

Plug the charging case into a USB power supply using the supplied USB cable to charge the headset and/or the charging case. It takes approx. 3 hours to charge the headset and the charging case together.

4.3 BATTERY STATUS

To hear the current remaining talk time in your headset, gently tap the headset when it is in your ear and you are not on a call.

To see the charging case battery status and/or the headset battery status (when docked), tap the Jabra button on the bottom of the charging case.

33-66% battery

0-33% battery

4.4 POWER NAP

To extend standby time the headset will automatically enter Power Nap mode when the headset is out of range of your connected mobile device for more than 15 minutes, or when the headset has not been moved for 1 hour. Power Nap provides up to 7 days of battery readiness/standby time.

To exit Power Nap simply move the headset. Your mobile device must be switched on, within range, and have Bluetooth enabled.

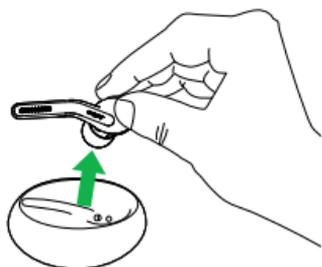

To answer an incoming call when the headset is in Power Nap mode, simply wear the headset and double-tap it to answer the call.

5. HOW TO CONNECT

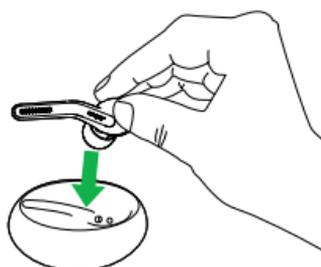

5.1 TURNING THE HEADSET ON/OFF

ON: Undock the headset from the charging case.

OFF: Dock the headset in the charging case. The Headset status LED will briefly light up white when the headset is docked.

ON

OFF

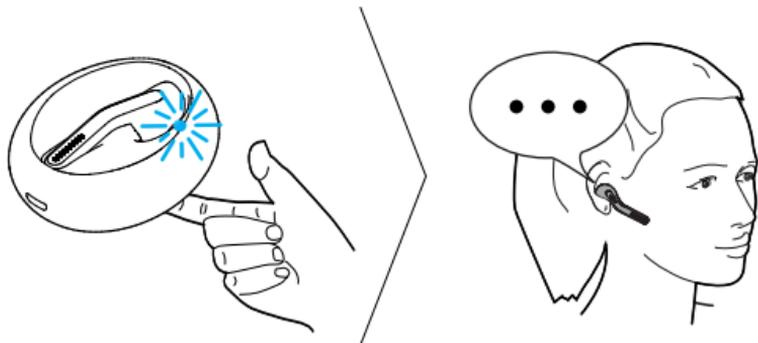

5.2 CONNECT USING THE APP

The easiest way to connect to your mobile device is to download and use the Jabra Assist app for iOS or Android devices.

5.3 CONNECT VIA BLUETOOTH

1. Dock the headset in the charging case, and ensure the headset is charged.
2. Press and hold (3 secs) the **Jabra** button on the bottom of the charging case until the light flashes blue.

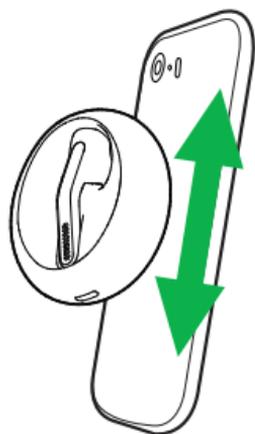

3. Wear the headset and follow the voice-guided instructions.

NOTE: Connecting via Bluetooth only needs to be completed the first time you are connecting to a new device.

5.4 CONNECT WITH AN NFC-ENABLED DEVICE

Dock the headset in the charging case, and slide your NFC-enabled device against the NFC zone on the bottom of the charging case until a connection is confirmed on your mobile device.

on a call

7.2 HEADSET VOICE CONTROLS

Headset voice controls are commands you can speak to control the headset.

WHAT YOU CAN SAY	WHAT IT MEANS
Answer	Answer incoming call
Ignore	Reject incoming call

Voice controls are available in the following languages: English, Chinese (Mandarin), Japanese, French, German, Russian, Polish, Dutch, Spanish, and Italian.

Language packs can be downloaded using the Jabra Assist app. If the headset language is changed, please refer to that language's user manual for the correct voice controls.

7.3 HEADSET VOICE GUIDANCE

Headset voice guidance are voice announcements intended to guide you or give headset status updates (e.g. connection and battery status).

Voice guidance is available in the following languages: English, Chinese (Mandarin), Japanese, French, German, Russian, Polish, Dutch, Spanish, Italian and Farsi.

Language packs can be downloaded using the Jabra Assist app.

7.4 PHONE VOICE COMMANDS (SIRI®, GOOGLE NOW™, CORTANA™)

Phone voice commands enable you to speak to Siri®/Cortana™/Google Now™ on your mobile phone using your headset. For more information on using Siri®, Google Now™, or Cortana™, please refer to your phone's user manual.

Activate Siri®/Google Now™/Cortana™
(phone dependent)

Gently double-tap
the headset when
not on a call

7.5 CALLER ID

Caller ID is the voice announcement of a contact name when there is an incoming call.

The following requirements for Caller ID must be met:

- The mobile phone must support the Bluetooth Phone Book Access Profile (PBAP)
- The incoming call's phone number must be associated with a stored contact in the phone
- The incoming call must not be from an unknown, unlisted, or blocked caller

NOTE: Japanese Caller ID supports phone number readout only. Chinese Caller ID supports Chinese Simplified only.

7.6 MULTIPLE CALL HANDLING

The headset can answer or reject calls when you are already on a call.

End current call and answer incoming call

Gently double-tap the headset

Reject incoming call, when on a call

Gently tap the headset

7.7 HOW TO CHANGE HEADSET LANGUAGE

The headset language can be changed using the Jabra Assist app.

The headset language can be changed to one of the following languages: English (US), Chinese (Mandarin), Japanese, French, German, Russian, Polish, Dutch, Spanish, Italian, and Farsi.

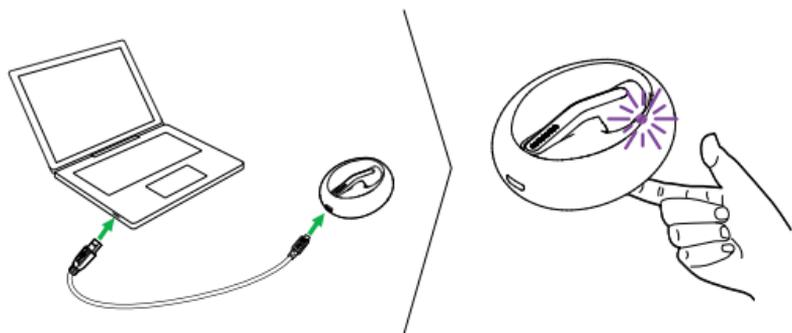

7.8 HOW TO UPDATE HEADSET FIRMWARE

To update headset firmware to the latest version, download and use the Jabra Assist app for iOS or Android, or go to jabra.com/talk55 for more help.

7.9 HOW TO RESET THE HEADSET

Resetting the headset will clear the list of connected devices. You will need to reconnect to your mobile device/s.

1. Dock the headset in the charging case, and connect the charging case to power using the USB cable.
2. Press and hold (8 secs) the **Jabra** button on the bottom of the charging case until the light flashes purple rapidly. Release the button.

8.2 HOW TO CARE FOR YOUR HEADSET

- Always store the headset with the power off and safely protected.
- Avoid storage at extreme temperatures (above 70°C/158°F or below -20°C/-4°F). This can shorten battery life and may affect the headset.
