

HyperX Caster

SIMPLE, TOOLLESS SOLUTION FOR A SMOOTH STREAMING SETUP.

The HyperX Caster Microphone and Camera Arm is a great piece of kit for streamers and content creators. It features a fully toolless installation⁴ for a streamlined, simple setup process, so you can skip the frustrating step of trying to hunt down the right screwdriver or wrench when you just want to make a simple adjustment. Get smooth, internal spring-assisted movement to position your microphone¹ or camera³ just where you want it. HyperX Caster won't just keep your equipment in place, the convenient built-in cable management² will also keep your cables organized and out of sight.

Key features

Simple, toolless setup

The first⁴ toolless microphone arm on the market! Save yourself the hassle of hunting down the right wrench or screwdriver. It also has a quick-release mounting clamp for toolless teardown.

Clutter-free cable management²

Built-in cable management allows you to tuck cables out of view and into the cable channel. Ensure your cables stay untangled and keep your setup looking clean and tidy!

Space-Saving Design

Save valuable desk space by mounting your camera or microphone onto the Caster. The compact, sleek design helps keep your work area free of clutter.

Cable Management

Cable management channel with cover

Compatible with most standard mics and cameras³

Upgrade the quality of your content by getting your mic or camera steadily positioned at your ideal angle. Caster supports up to 2.2 pounds (1kg) and features 3/8in. threading plus 5/8in. and 1/4in adapters.

Easy positioning with spring-assisted movement

Get your microphone or camera positioned just as you like it with the HyperX Caster's internal spring-assisted adjustment, 360° movement at the base, and up to 36.1in. of horizontal reach.

Durable Construction

This toolless mount is built to last, using high-quality materials to ensure reliability and withstand the demands of daily use in dynamic environments.
