

ThinkCentre Neo 50t Gen 4

Step into the world of optimal productivity with this desktop computer designed to enhance the work experience for modern professionals in their offices. Equipped with the up to 13th Gen Intel Core i9 processors, it can handle tasks that require resource-intensive applications without frustrating lags. The support of up to 3 independent displays enables professionals to expand their workspace and connect to peripherals using the USB-C and HDMI ports during client presentations.

The advanced graphics capabilities of this desktop powered by the choice of Intel UHD or AMD Radeon graphics help graphic designers and business analysts enjoy a heightened level of clarity in 3D renderings and details in statistical data.

With up to 3 TB storage, users can keep their digital assets organized and readily accessible, so they never miss a beat during crucial presentations or important client meetings.

The device is certified with Energy Star 8.0 and EPEAT Gold certifications to ensure businesses save money and reduce impact on the environment.

Mainstream computing for a variety of business uses

ThinkCentre Neo series offers organizations enhanced manageability and security features, along with additional configuration and expansion options.
