

HyperX Tactile Switches

HOT SWAP IN FOR ULTRA-FAST PERFORMANCE.

HyperX Linear Switches are key switches that have taken the successful foundation of our red switches and refined them into a more agile, more versatile package. These 5-pin switches are compatible with most 5-pin hot-swappable keyboards, so even if you don't have a HyperX keyboard, you can still enjoy the benefits of these high-performance switches. HyperX Linear Switches feature half-wall stems, increasing keycap stability when executing rapid taps or in other high-pressure situations. The switches also come pre-lubed, so you can enjoy smooth, quiet, responsive keypresses right out of the box². Built to last with a durable nylon base to support the leaf, spring, and stem, and with a crystal-clear polycarbonate top, these reliable switches are rated for a lifetime of up to 80 million keypresses¹.

Key features

Hot-swap into most 5-pin keyboards

Give your old hot-swappable board new life with a set of 5-pin HyperX Tactile Switches. Get one step closer to your endgame with versatile switches built to balance typing accuracy and speed.

Smooth performance right out of the box

These switches come pre-lubed, so you won't need to get out your brush and tweezer. Just pop in and drop in.

Short 1.8mm travel actuation for responsiveness

With a 40g actuation force and short 1.8mm travel actuation, HyperX Linear Switches are tuned for high-performance gaming.

POM half-wall stems for keycap stability

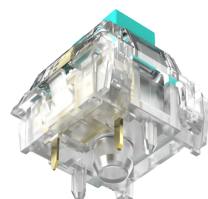

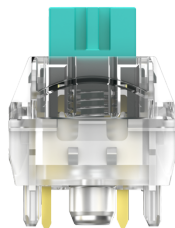

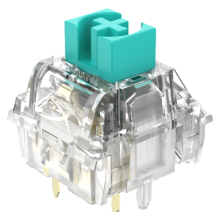

Anyone who knows the pain of a keycap wobble dropping their combo or disrupting their speedrun will appreciate these half-wall stems. They provide a more stable foundation for your keycaps.

Durable housing

HyperX Linear Switches feature a crystal-clear polycarbonate top for lighting, built on top of a sturdy nylon foundation to support the stem, leaf, and spring in place.

Rated for up to 80 million keypresses¹.

HyperX Switches are built to last, rated to provide a lifetime of reliable responsiveness.

Product Names	Product name: HyperX Tactile Switches
Product Numbers	Product number: 85U08AA
Appearance	Product Primary Color: Blue
Compatibility	Compatibility statement: PC
Multimedia and input devices	Keyboard type: Tactile; Switch: Switch Type: 5-pin; Actuation point: Actuation Force: 45 g; Total travel distance: Key Travel Distance: 1.8 mm; Total Travel: 4.0 mm.;; Keyboard switch: HyperX Linear Switches
Minimum order quantity	Minimum Purchase Quantity corresponds to the Carton's Units Quantity.
What is in the box	45 HyperX Tactile Switches, Quick Start Guide.
Manufacturer Warranty	2 years
