

MPN: MMKN150-16GB

## 16GB Memory Module NON-ECC, DDR5 PC5-41600, 262PINS, SO-DIMM

In CoreParts you will find a wide range of alternative RAM modules all using original chip sets, that match the performance of your original RAM modules with different sizes, and capacities, manufactured by high-end, certified and trusted suppliers.

- High Quality
- Tested and certified
- Matching Performance
- Reliable with 10 years Warranty

### Specifications

|                    |                                |                 |
|--------------------|--------------------------------|-----------------|
| Features           | CAS latency                    | 42              |
|                    | Component for                  | Notebook        |
|                    | ECC                            | No              |
|                    | Internal memory                | 16 GB           |
|                    | Internal memory type           | DDR5 PC5-41600  |
|                    | Memory clock speed             | 5200 MHz        |
|                    | Memory form factor             | 262PINS SO-DIMM |
|                    | Memory layout (modules x size) | 1 x 16 GB       |
|                    | Memory voltage                 | 1.1 V           |
|                    | Module configuration           | 2048M x 8       |
|                    |                                |                 |
| Other features     | Capacity                       | 16 GB           |
|                    | Chips organisation             | 2048*8          |
|                    | Number of pins                 | 262             |
| Packaging data     | Package type                   | Box             |
|                    |                                |                 |
| Vendor information | Brand Name                     | CoreParts       |
|                    | Warranty                       | 1 Year(s)       |
