

ThinkPad T14s Gen 2 (AMD)

This newly redesigned ThinkPad combines mobility and performance for the ultimate productivity experience in today's hybrid work environment. Powered by the latest AMD Ryzen™ 5000 PRO series processors and up to 32GB LPDDR4x RAM for faster processing, the device can breeze through day-to-day tasks with ease. At 1.28 kg (2.83lbs), it is remarkably lightweight yet offers outstanding durability and a battery that can last up to 14.9 hours.

Users will appreciate the optional 4K Dolby Vision HDR display offering exceptional contrast and colour depth. Alternatively, the Full HD display with PrivacyGuard digitally prevents shoulder surfers from viewing information on the screen. Onboard Thunderbolt 3 port enables quick transfer of large files.

With Modern Standby, busy professionals can configure the device to receive important updates even with the lid closed, and resume in a second when needed – just like a smartphone. Optional 4G/5G WWAN module enables reliable connectivity when WiFi network is weak or unavailable.

Minimal preloaded applications mean maximum battery life and responsiveness for users, and faster deployment for IT admins.

Lenovo devices that are a class apart

The ultimate productivity notebook, ThinkPad T Series will keep users productive all day with long battery life, docking and enhanced connectivity options, security and manageability features.
