Description

The USB 2.0 4Pin mainboard to USB-A Female/Female Internal Cable is a compact and versatile cable designed to connect your motherboard's USB 2.0 header to an internal USB-A female port. This cable allows you to extend your motherboard's USB connectivity within your PC case, making it easy to connect internal devices or peripherals. It features a 4-pin connector for compatibility with USB 2.0 headers on most motherboards and two USB-A female connectors, providing a straightforward solution for internal USB connections. This cable is a valuable addition for custom PC builds, allowing for seamless connections and enhanced functionality within your computer case.
